Estructura en Uruguay

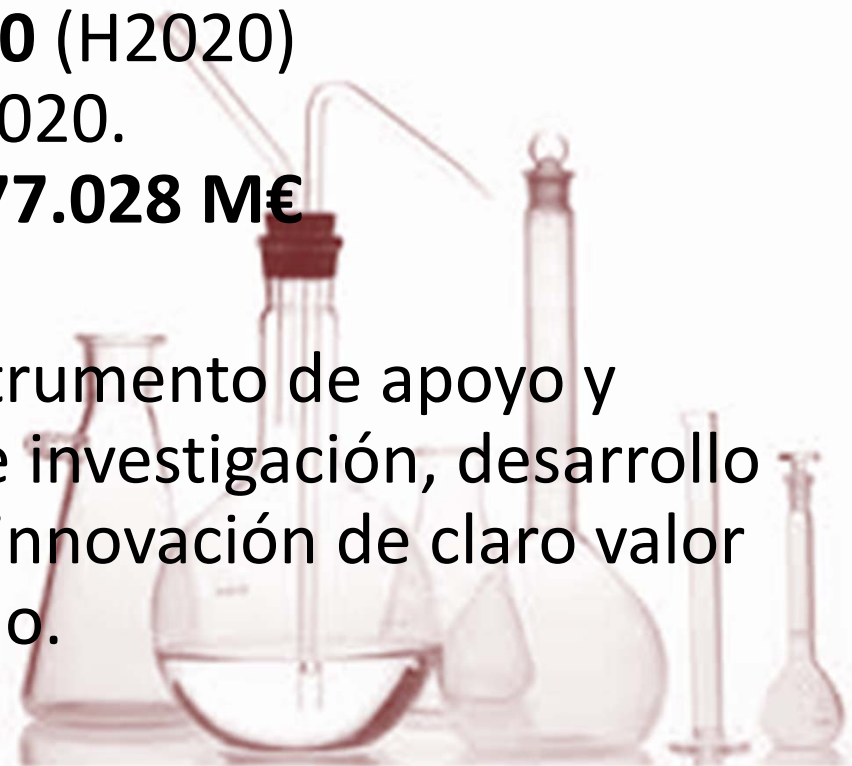

Características generales

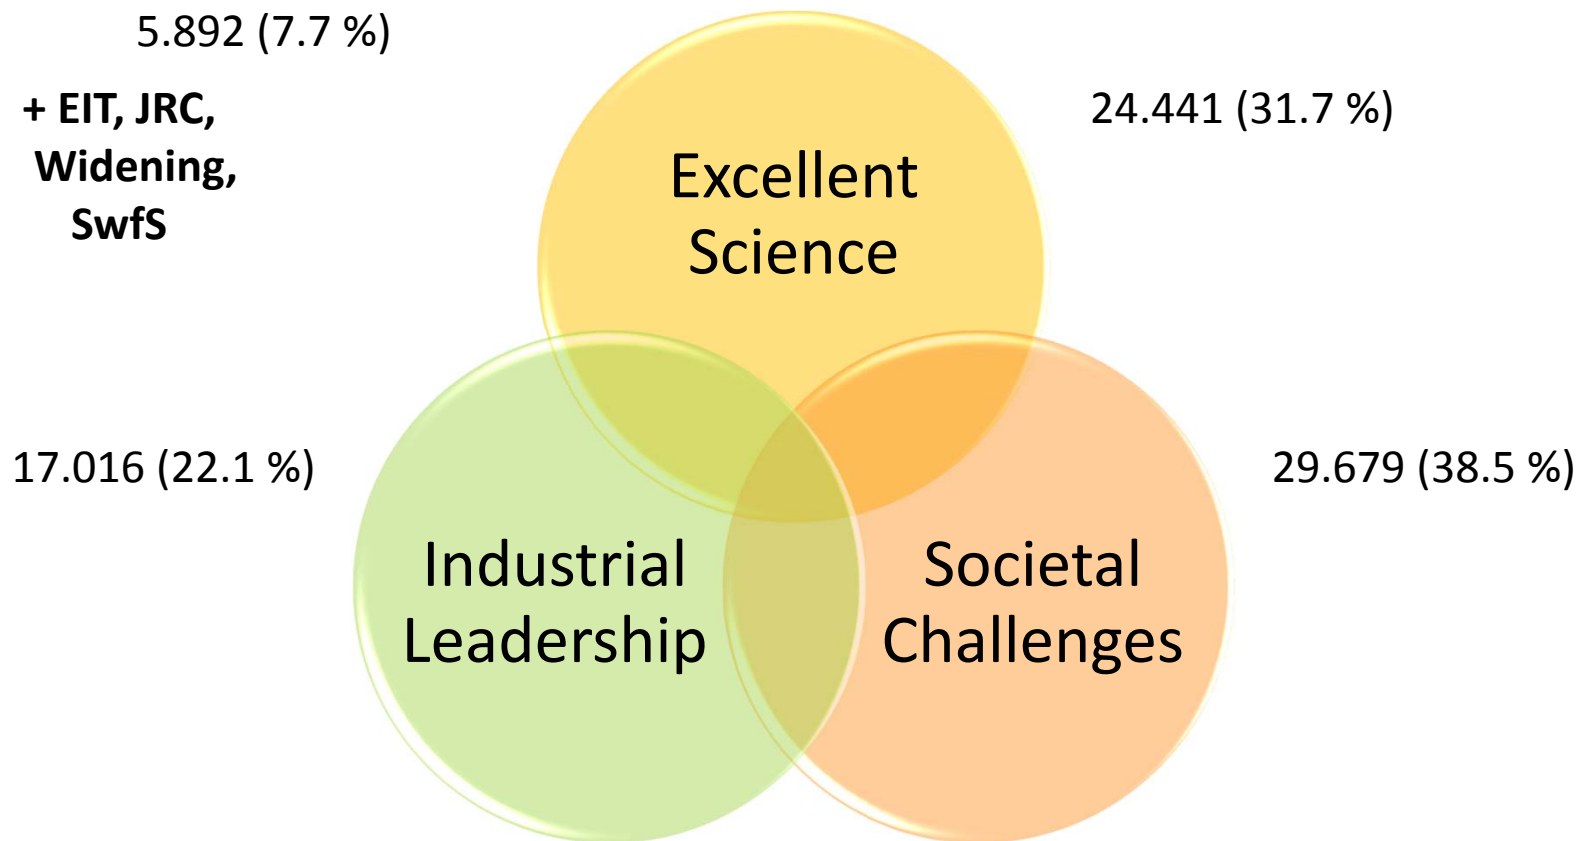

La Unión Europea concentra gran parte de sus actividades de **investigación e innovación** en

Horizonte 2020 (H2020)
2014 – 2020.
Presupuesto: **77.028 M€**

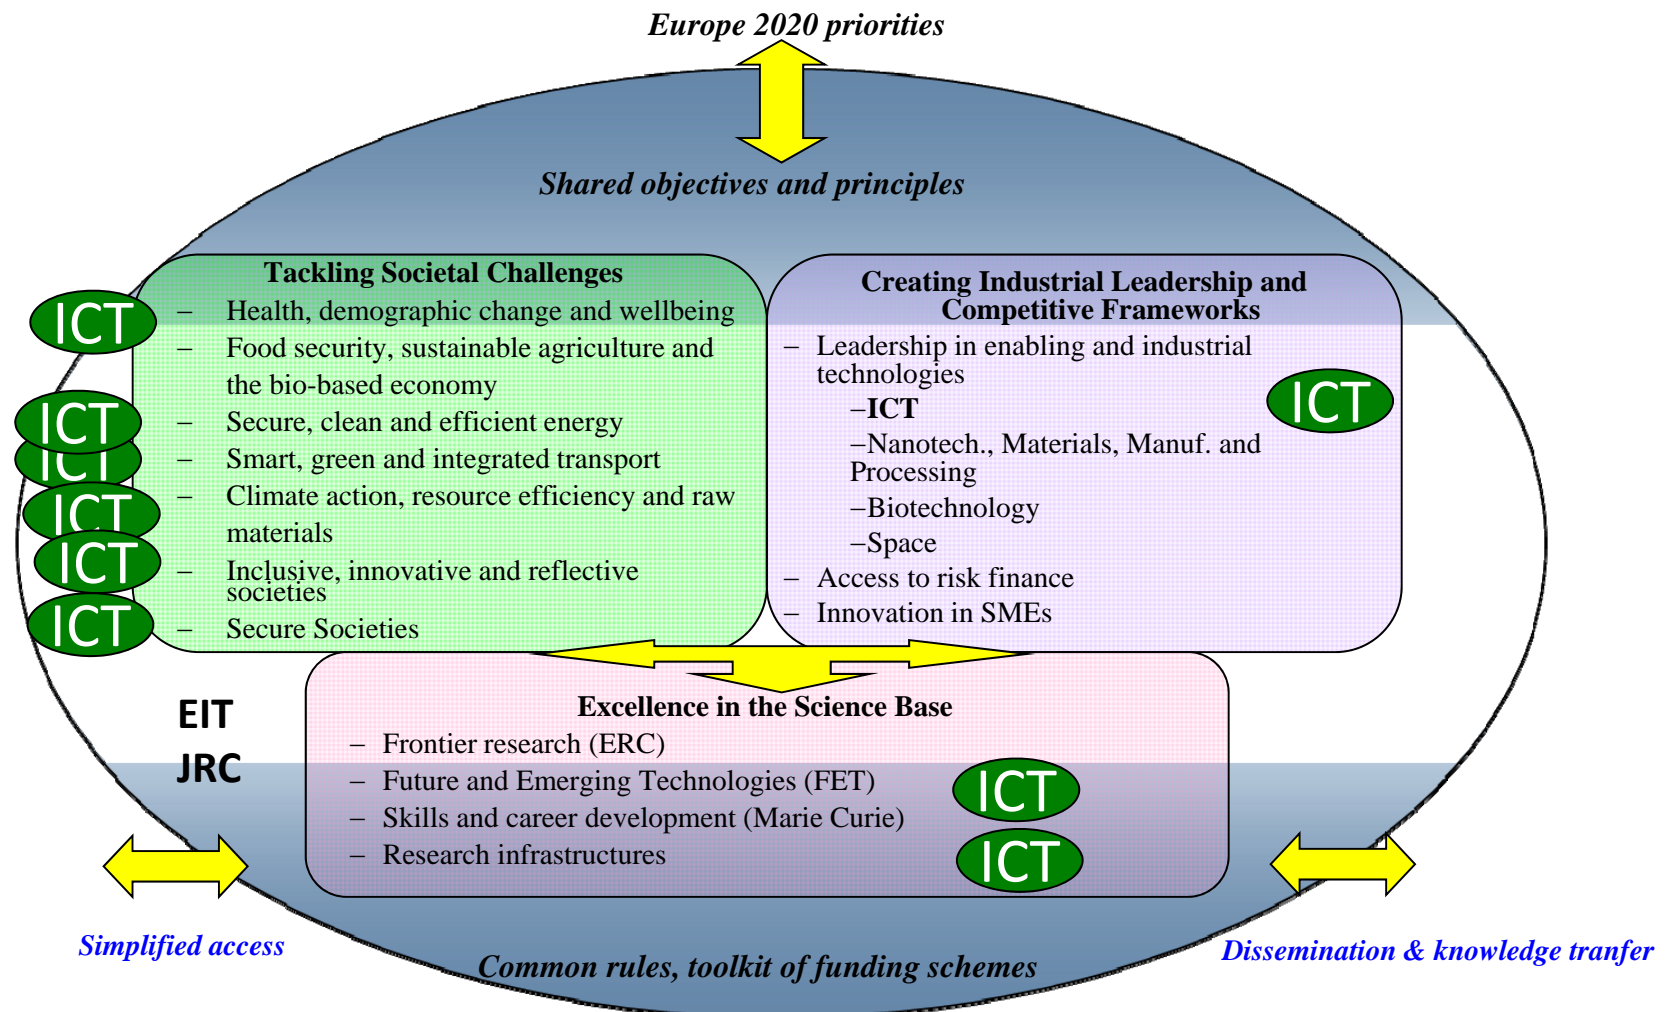

H2020 es el principal instrumento de apoyo y financiación de actividades de investigación, desarrollo tecnológico, demostración e innovación de claro valor añadido.

Tres pilares fundamentales

ICT en Horizonte 2020

Convocatorias ICT 2014/2015

Excellence Science

✓ Investigación avanzada para descubrir nuevas posibilidades tecnológicas

- **Tecnologías futuras y emergentes (FET).**
 - **FET OPEN:** ideas innovadoras para tecnologías radicalmente nuevas

Call **FET-OPEN – RIA:** 1 topic

Cut off: 30.09.2014 - Fecha de cierre: **31.03.2015**

Call **FET-OPEN- CSA:** 1 topic

Fecha de apertura: **30.09.2014** /Fecha de cierre: 31.03.2015

- **FET PROACTIVE:** fomento de temas y comunidades emergentes

Call **FET PROACTIVE – 2** topic abiertos

Fecha de cierre: **25.11.2014**

Convocatorias ICT 2014/2015

Excellence Science

- ✓ Investigación avanzada para descubrir nuevas posibilidades tecnológicas
 - **Infraestructura de investigación**
 - **E-INFRA:** Desarrollo, implementación y operación de las e-infraestructuras basadas en las TICs.

Call **E-INFRASTRUCTURES 2015 - 2** topic

Fecha de apertura: **24.09.2014**

Fecha de cierre: **14.01.2015**

Convocatorias ICT 2014/2015

Societal Challenges

- ✓ Investigación e innovación multidisciplinar
 - Se espera un importante aporte de las TICs en **seis** de los siete desafíos sociales:
 - SC1 Salud, cambio demográfico y bienestar
 - SC3 Energía segura, limpia y eficiente
 - SC4 Transporte inteligente, sostenible e integrado
 - SC5 Acción por el clima, medio ambiente, eficiencia de recursos y materias primas
 - SC6 Sociedades inclusivas, innovadoras y reflexivas
 - SC7 Sociedades seguras

LEIT - ICT

Industrial Leadership

- ✓ Liderazgo en las tecnologías facilitadoras e industriales (**LEIT**): Actividades de investigación e innovación utilizando tecnologías impulsadas por la agenda industrial o estrategias bottom up.

Tecnologías de la información y la comunicación (ICT)

- Presupuesto 2014-2020: **7711 M€**

Áreas LEIT - ICT 2014/2015

- ✓ Una nueva generación de componentes y sistemas
 - ✓ Computación avanzada
 - ✓ Internet del futuro
 - ✓ Contenido tecnológico y gestión de la información
 - ✓ Robótica
 - ✓ Micro y nano electrónica, fotónica
-
- ✓ El programa de trabajo también incluye llamados transversales, actividades de innovación horizontales y de cooperación internacional.

Convocatorias

LEIT - ICT 2014/2015

Call **ICT 2014** - 1 topic abierto
Fecha de cierre: **25.11.2014**

Call **ICT 2015** - 15 topic
Fecha de apertura: **15.10.2014**
Fecha de cierre: **14.04.2015**

Estructura de las convocatorias

- ✓ Programa de trabajo bianual: desafíos específicos, alcance, impacto esperado, tipo de acción, etc.
- ✓ CALL = Convocatoria
- ✓ Una convocatoria puede tener muchos tópicos
- ✓ Cada tópico es una propuesta distinta.

- ✓ Documentación básica:
 - ✓ Programa de trabajo (Introducción + específico + anexos)
 - ✓ Bases legales H2020: Reglamento + reglas de participación

Condiciones de elegibilidad y financiamiento

Condiciones Mínimas de Elegibilidad		Financiamiento
Acciones de Investigación e Innovación	Al menos 3 entidades legales establecidas en diferentes Países Miembros o Países Asociados a la Unión Europea. Las 3 entidades deben ser independientes entre sí.	100%
Acciones de Innovación	Al menos 3 entidades legales establecidas en diferentes Países Miembros o Países Asociados a la Unión Europea. Las 3 entidades deben ser independientes entre sí.	70% (excepto para organizaciones sin fines de lucro, que tienen el 100%)
Acciones de Coordinación y Apoyo	Al menos 1 entidad legal establecida en un País Miembro o País Asociado de la Unión Europea.	100%
Instrumento para las Pequeñas y Medianas Empresas (PYMEs)	Al menos 1 PYMEs con ánimo de lucro establecidas en País Miembro o País Asociado de la Unión Europea.	1º Fase: Investigación - 50.000 aprox (6 meses aprox), 2º Fase: Innovación - 70%, 3º Fase: Comercialización – No financiamiento directo

¿Cómo participar?

Portal del participante

The screenshot shows the top navigation bar of the European Commission Research & Innovation Participant Portal. The header includes the European Commission logo and the text 'RESEARCH & INNOVATION Participant Portal'. Below this is a breadcrumb trail: 'European Commission > Research & Innovation > Participant Portal > Home'. The main navigation menu contains 'HOME', 'FUNDING OPPORTUNITIES' (highlighted with a green box), 'HOW TO PARTICIPATE', 'EXPERTS', 'SUPPORT', a search bar labeled 'Search PP', and 'LOGIN' and 'REGISTER' buttons.

Horizon 2020 Funding
Starting from 1/1/2014

On this site you can find and secure **funding** for research & innovation projects under the following EU programmes:

- **2014-2020** Horizon 2020 - research and innovation framework programme
- **2007-2013** 7th research framework programme (FP7) and Competitiveness & Innovation Programme (CIP)

<p>Non-registered users</p> <ul style="list-style-type: none">• search for funding• read the H2020 Online Manual & download the legal documents• check if an organisation is already registered• contact our support services or check our FAQs	<p>Registered users</p> <ul style="list-style-type: none">• submit your proposal• sign the grant• manage your project throughout its lifecycle

H2020-ICT-2015

Planned Opening Date	15-10-2014	Deadline Date	14-04-2015 17:00:00 (Brussels local time)
Publication date	23-07-2014	Main Pillar	Industrial Leadership
Total Call Budget	€561,000,000		
Status	Forthcoming		

Topic: Big data - research **ICT-16-2015**

[Topic Description](#) [Topic Conditions & Documents](#) [Submission Service](#)

Specific Challenge: The activities supported within LEIT under this topic contribute to the Big Data challenge by addressing the fundamental research problems related to the scalability and responsiveness of analytics capabilities (such as privacy-aware machine learning, language understanding, data mining and visualization). Special focus is on industry-validated, user-defined challenges like predictions, and rigorous processes for monitoring and measurement.

Scope:

- a. Research & Innovation Actions:** proposals are expected to cover one or both of the themes identified below.
- Collaborative projects to develop novel data structures, algorithms, methodology, software architectures, optimisation methodologies and language understanding technologies for carrying out data analytics, data quality assessment and improvement, prediction and visualization tasks at extremely large scale and with diverse structured and unstructured data. Of specific interest is the real time cross-stream analysis of very large numbers of diverse, and, where appropriate, multilingual, multimodal data streams. The availability for testing and validation purposes of extremely large and realistically complex European data sets and/or streams is a strict requirement for participation as is the availability of appropriate populations of experimental subjects for human factors testing in the domain of usability and effectiveness of visualizations. Explicit experimental protocols and analyses of statistical power are required in the description of usability validation experiments for the systems proposed. Proposals are expected, where appropriate, to make best possible use of large volumes of diverse open data from the European Union Open Data portal[1] and/or other European open data sources, including data coming from EU initiatives like Copernicus and Galileo.

COSME

Topic Description

Topic Conditions & Documents

Submission Service

Expected impact:

- Reinforce and broaden Europe's strong position in low-power computing in traditional and new market segments by strengthening the technology competences of European suppliers and the academic community.
- Reduction of energy consumption of servers by 2 orders of magnitude as compared to state of the art in 2013.
- Double the productivity in efficiently programming and maintaining advanced computing systems powering cyber-physical systems as compared to state of the art in programming embedded systems in 2013.
- Increase the adoption of form-factor data-centres and heterogeneous highly parallel computing systems.
- Higher involvement of SMEs, both on the supply and the demand-side.
- Increased adoption of concurrency in applications across all sectors; higher degree of parallelism in applications; increased public trust in embedded applications due to secure and reliable architectures.

Types of action:

- a. Research & Innovation Actions – A mix of proposals requesting *Small and Large contributions* is expected
- b. Innovation Actions – A mix of proposals requesting *Small and Large contributions* is expected

Puntos Nacionales de Contacto

The screenshot shows the MEC website's navigation bar with 'SUPPORT' selected. A dropdown menu is open, with 'National Contact Points' circled in red. An orange arrow points from the 'SUPPORT' menu to the 'National Contact Points' page content. Below the page content, a search filter is shown with 'Uruguay' selected in the country dropdown and 'Information and Communication' selected in the service dropdown. Another orange arrow points from the 'Uruguay' dropdown to the 'Information and Communication' dropdown.

HOME FUNDING OPPORTUNITIES HOW TO PARTICIPATE EXPERTS **SUPPORT** Search PP LOGIN REGISTER

National Contact Points

Network of National Contact Points

The network of National Contact Points (NCP) provides assistance on all aspects of participation in Horizon 2020.

What is the NCP network?

NCPs are national structures established and associated to the framework programme. NCPs are available in all EU member states and the states associated to the framework programme. They provide a one-stop and in applicants' own languages. The NCP systems can vary from one country to another from highly centralised to decentralised networks, and a number of very different actors, from ministries to universities, research centres and special agencies to private consulting companies.

NCPs are also established in many non-EU and non-associated countries ("third countries").

NCP Services

As the NCPs are national structures, the type and level of services offered may differ from country to country. In general, the following basic services are available in accordance with the [NCP Guiding Principles](#) agreed by all countries:

United States Minor Outlying Islands
Uruguay
Uzbekistan
Vanuatu
Venezuela

Marie Skłodowska-Curie
Infrastructures
Information and Communication
NMP
Space

Crterios de evaluacin

Award criteria

Experts will evaluate on the basis of the criteria ‘excellence’, ‘impact’ and ‘quality and efficiency of the implementation’. The aspects to be considered in each case depend on the types of action as set out in the table below, unless stated otherwise in the call conditions. (The provisions applying to calls under Marie Skłodowska –Curie are set out under that chapter of the work programme).

Type of action	Excellence	Impact	Quality and efficiency of the implementation
All types of action	Clarity and pertinence of the objectives; Credibility of the proposed approach.	The expected impacts listed in the work programme under the relevant topic	Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources; Complementarity of the

H2020 call for expression for interest for experts (11/2013)
 New calls for expression of interest for individual experts and for organisations to suggest experts were just published in [OJ C342 of 22 November 2013](#). European Commission will soon need experts to evaluate first Horizon 2020 proposals. Don't forget to tick the H2020 box in the registration platform and update your expertise.

Experts
H2020 ONLINE MANUAL

Join the database of independent experts for European research and innovation.

The European Commission appoints independent experts to assist with research and innovation assignments including the evaluation of proposals, monitoring of projects, and evaluation of programmes, and design of policy.

Quick Links

- [FAQ for Experts](#)
- [Expert recommendations](#)

Logistics for Brussels

- [Map of evaluation area](#)
- [Info on hotels](#)
- [Metro map](#)

New experts

Who can be an expert?

You have a chance of being selected as an expert if you:

- have high-level of expertise in the relevant fields of research and innovation ([see call](#) for details on types of expertise).
- can be available for occasional, short-term assignments

REGISTER AS EXPERT

What do expert assignments involve?

Experts, as peer reviewers, assist in the:

- **evaluation** of proposals
- **monitoring** of actions

In addition, experts assist in the :

- **preparation, implementation or evaluation of programmes** and **design of policies**. This includes the Horizon 2020 Advisory Groups.

Assignments mainly concern research and innovation, falling within the Horizon 2020 programme designed to address the challenges Europe is facing through funding excellent science, technology and innovation.

Take a look at the most recently [funded projects](#).

ECAS

The screenshot shows the ECAS login interface. At the top left, there is the European Commission logo and the text 'EUROPEAN COMMISSION AUTHENTICATION SERVICE (ECAS)'. Below this is a blue navigation bar with 'External' and a breadcrumb trail 'EUROPA > Authentication Service > Login'. On the right side of the navigation bar are links for 'Login', 'New password', 'Sign Up', and 'Help'. The main content area is split into two columns. The left column features the ECAS logo, a circular seal with the text 'ECAS authenticates you on European Commission websites', and a message in parentheses: '(authenticates your identity on European Commission websites)'. Below this, it states 'Participants Portal requires you to authenticate'. The right column contains the login form. It starts with the heading 'Login' and a link 'Not registered yet'. A grey box asks 'Is the selected domain correct?' with 'External' selected and a 'Change it' link. Below are two input fields: 'Username or e-mail address *' and 'Password *'. A 'More options...' link is below the password field. At the bottom of the form area are a 'Login!' button and a 'Lost your password?' link. A legend at the bottom left of the form area indicates '* Required fields'.

The screenshot shows the 'Participant Portal' interface. The top navigation bar includes 'HOME', 'FUNDING OPPORTUNITIES', 'HOW TO PARTICIPATE' (selected), 'EXPERTS', and 'SUPPORT'. A search bar and 'LOGIN'/'REGISTER' buttons are also present. On the left, a sidebar menu lists 'H2020 Online Manual', 'Reference Documents (H2020 & FP7)', 'Beneficiary Register' (circled in red), 'Financial Viability Self-Check', and 'SME Participation'. The main content area is titled 'How to participate' and includes an 'H2020 ONLINE MANUAL' button. It features two images: a document with a pencil and a globe. Below these is a list of services: 'H2020 Online Manual', 'Reference documents', 'search for already registered organisations and their PICs', 'Financial viability self-check tool', and 'SME participation'. At the bottom, a 5-step process bar is shown, with '1 FIND a call' highlighted. Below the process bar, a section titled 'Step 1 - Find a suitable Call for Proposals' includes another 'H2020 ONLINE MANUAL' button.

The Commission publishes on the Participant Portal all the Calls of its research and innovation programmes H2020, and you can search calls from previous programmes (FP7 and CIP). In addition you can find information about some additional calls in the [Other Funding Opportunities](#) section. If you apply for the first time and do not know yet the programmes, it is useful to read the H2020 Online Manual. It helps you choose the most suitable programme for your area and profile. Besides, you can [search according to your research topic](#) with key words and set filters in the calls list.

Beneficiary Register H2020 ONLINE MANUAL

If you want to participate in a project proposal, your organisation needs to be registered and have a **9-digit Participant Identification Code (PIC)**. Please quote your PIC in all correspondence with the Commission

The **register contains all beneficiaries** participating in the EU research and innovation or education, audiovisual and cultural programmes.

Is your organisation already registered? PIC search

Please check whether your organisation has already been registered. If so, no need to register it again.

SEARCH

Register your organisation

To register, you need to **login** in the Portal or, if you are a new user, [create your account](#).

Check what information you need to register in the [H2020 Online Manual](#) - **and keep it to hand** during the registration procedure. To start registration, click on the button below.

If your organisation is a Small or Medium-sized Enterprise (SME) you must enter a few key data on your organisation in a questionnaire that will become accessible during your registration when you selected "Research and Innovation Programme" from the drop down list.

REGISTER ORGANISATION

You can quit the registration process at any time; the data entered can be saved as a draft and you may **continue your registration** later. To do that, go to **My Organisations** of the My Area section. Incomplete, draft registrations are automatically deleted after 90 days.
